

# DEZENT TI DARK

## **Mystical appearance**

### **DEZENT TI dark is convincing through its “dark” side**

A magic combination: The alloy wheel TI dark offers the latest technology coupled with an individual look. 10 spokes springing up from the slightly concave middle part as well as the distinctive and especially deep positioned rim flange, ensure dynamism. Apart from its unique look, the TI is also technically profound and, of course, state-of-the-art. It is optimized for weight, thus contributing to a light-footed handling of the car.
