

DEZENT TJ

Up-to-date through every season of the year

The elegant DEZENT TJ for SUVs, Pickups and Offroaders

As the name already suggests, the Dezent TJ is best equipped for „Tough Jobs“ and thus perfectly suited for Toyota Landcruisers, Mitsubishi L200s, Pajeros and many others which spend their free time also off the boulevards. Already at first glance, the TJ's clear language of forms scores well with the compact middle part and sublimed spoke edges. The struts were designed to be a bit wider, giving a more stable, striking and tasteful look.
