

DEZENT TM DARK

What a T(ea)M!

The DEZENT TM dark for Mini fans

Ten blunt spokes, a slim centre – the geometry is reminiscent of the classic Mini Cooper designs. But the real kicker is the finish, which makes this alloy wheel as stylish as a bespoke suit made in Savile Row: The pitch black meets an attractive front polishing, which, next to the rim flange, also comprises the spokes' central spine. This makes for five original "cake slices". So we have got a sporty shape, an elegant finish and state-of-the-art technology! Thanks to ECE approvals and engraved type numbers the DEZENT TM dark can be assembled without any red tape: plug & play!
