

DEZENT TH

Trendsetter on a trip of harmony

DEZENT styles the elegant TH especially for vans and SUVs

With its silver finish, the alloy wheel lends elegant lightness to big vehicles without appearing like a foreign object. The wide spokes framed by sublimed edges perfectly go with the physique of the practical "heavy-weight athletes". The clear, straight-forward language of forms goes well with the image and moreover has the advantage that the DEZENT TH is easy to clean in the summer as well as in the winter.
