

DEZENT TI

Technology and Individuality

DEZENT TI alloy wheel with a compelling look and design

A modern look and a state-of-the-art design: This is the attractive combination provided by the DEZENT TI. The 10-spoke sporty design features an extra deep and thus very striking rim flange. This dynamic look is also underscored by the slightly concave centre, from which the spokes stretch out in a round arc. But it isn't only the look that is convincing: The TI is weight-optimised and thus makes for an easy handling.
