

DEZENT TD

A brand-new design classic

The new alloy wheel DEZENT TD is ready for winter

Retro, anti-retro, progressive or futuristic? If you are not sure and want to find the right style, you will rather go for a classic design. But what about innovation? With its new alloy wheel TD, DEZENT shows how to add new effects to timeless design elements and thus form a new, unique design. This straight wheel with the surprising bend will still be fashionable in years to come.

With its new five-spoke wheel, the traditional German manufacturer DEZENT presents the continuation of an always recognisable design. A real novelty are the right-asymmetric ends, which lend the classically straight spokes an exciting
